advisor review

PROBLEM

Support often arrives after challenges become visible.

Many students may need earlier academic, wellbeing, or engagement guidance before difficulties become critical.

SOLUTION

Proactive success navigation.

PutraInsight AI 2.0 helps UPM act earlier by generating AI-guided, NotebookLM-grounded student success pathways.

IMPACT METRICS

- 20 anonymized student profiles analyzed
- 20 personalized support pathways generated
- 29 mentor/advisor actions recommended
- 7 students moved to stable pathway in simulation
- 100% recommendations grounded using NotebookLM sources
- +26 average improvement for supported students

Core Workflow

MULTI-STUDENT DASHBOARD

Student Success Score

AI INSIGHT ENGINE

Why this recommendation?

- Mentor match 91%
- Source confidence 92%
- Explainable recommendation plus 30-day Success Journey.

NOTEBOOKLM ROLE

Institutional grounding layer

Grounds recommendations using official UPM resources so guidance remains relevant, source-aware, and institution-specific.

GEMINI ROLE

Reasoning layer

Analyzes anonymized student indicators and generates explainable recommendations for mentor/advisor review.
